Oggetto: BA609 A/C 60002 First Flight - ***The 550 system worked perfectly.***

We are pleased to announce that today, 9 November 2006 at AgustaWestland Facility in Cameri AFB airport, the ***BA609 A/C 60002 has made its First Flight***

The First Flight take off took place at 14.15 hr and the prototype had successfully flown for a duration of about 60 min. The crew was composed by Pietro Venanzi Pilot and Herbert Moran Co-pilot. Further Flight Testing activities will take place during next days in accordance with the test plan.

We would like to thank everybody for the great effort made that had permitted this event possible.

Pino Toscano/Silvano Scorbati
